Stock Exchange of Thailand

Executive Summary

BPS Technology Public Company Limited operates the business as a distributor of connection equipment of electrical equipment inside buildings and solar cell equipment, including procuring, designing, and installing services of electrical systems, solar cells, and fiber optic system. The Company plans to expand its business to products that provide convenience and safety inside the home and industrial factories by employing a 24/7 Monitoring System as a detection aid for energy consumption and safety with real-time analysis.

Currently, the economic situation in the construction industry and the housing industry has slowed down, affecting the Company's operations. This has led to rather high competition in terms of price, along with an increase in the number of new competitors in the market. Manufacturing factories are starting to compete in the market as well. Therefore, the Company has planned to expand its business from sales of electrical equipment (Trade) to more technology-orientation (Tech) to cope with the state of competition and the slowdown in the construction and housing industries.

Summary of important events and developments

The Company has signed a Memorandum of Agreement on Cooperation with Security Best Group Co., Ltd. to
jointly develop the service-related business by integration of CCTV, security system and usage of 24/7
Monitoring System of BPS.

The Company has signed a Memorandum of Agreement on Cooperation with Dahua Technology (Thailand)
 Co., Ltd. to develop Green Home Solution to support the integrated housing technology with 24/7 Monitoring System of BPS.

Operating results in the 4th quarter of 2024

The Company had a total operating revenue of Baht 127.71 million or a decrease of Baht 37.12 million or 22.52% from Q4/2023. The primary reason was due to a decrease in revenue from sales of electrical products by Baht 7.50 million or 5.73%. This was due to a decrease in energy products by Baht 8.01 million or 89.20%, and a decrease from rooftop solar cell installation services by Baht 20.96 million or 94.33%. This was mainly due to the slowdown in the real estate sector, which led to reduced demand for electrical and energy system products in large-scale construction projects. Additionally, the Company secured smaller-scale rooftop solar installation projects compared to those in Q4/2023. The total operating revenue in Q4/2024 increased by Baht 11.13 million or 9.55% from Q3/2024, primarily due to an increase in product and service sales of Baht 10.40 million or 8.93%, along with an additional of other income from interest earned on fixed deposits of Baht 0.70 million. Meanwhile, in Q3/2024, the Company incurred a foreign exchange loss.

The Company's total cost of sales and services of Baht 105.08 million, a decrease of Baht 34.56 million or 24.75% compared to Q4/2023. Meanwhile, the cost of sales and services increased by Baht 8.83 million or 9.17% from Q3/2024, fluctuating in line with revenue.

The Company had a net profit of Baht 3.61 million, an increase of Baht 0.92 million or 34.20% compared to Q4/2023, primarily due to a decrease in selling expenses, administrative expenses, and financial costs. Additionally, the net profit for Q4/2024 increased by Baht 2.98 million, or 4.73 times, compared to Q3/2024, due to a higher revenue from product sales and a reduction in selling and administrative expenses.

Operating results for 2024

For the period ended December 31, 2024, total operating revenue amounted to Baht 531.51 million, a decrease of Baht 207.26 million or 28.05% from 2023. Revenue from product sales declined across all categories, including a decrease in electrical system products by Baht 103.32 million or 17.50%, energy group products by Baht 19.13 million or 49.64%, technology and communication group products by Baht 3.98 million or 91.49%, and other product groups by Baht 3.41 million or 69.31%. Moreover, the revenue from solar power system installation services and other services decreased by Baht 72.52 million or 77.26%, except for the additional revenue from communication signal FTTx services introduced in 2024. Other income decreased by Baht 2.65 million or 57.99%

The Company's cost of sales and services for the period ended December 31, 2024, amounted to Baht 441.48 million, a decrease of Baht 187.78 million or 29.84% from 2023, fluctuating in line with the decline in revenue.

The Company had a net profit of Baht 7.59 million, a decrease of Baht 12.65 million or 62.50% from 2023, primarily due to a significant decline in revenue. Meanwhile, distribution and administrative expenses decreased only slightly relative to the decline in revenue of only 3.65%, which was due to the Company's early-stage expansion into the technology and communication sector and required hiring specialized personnel to support these operations, leading to additional distribution and administrative costs. Furthermore, advertising expenses, promotional costs, and travel expenses increased as the Company sought new raw material sources to reduce product costs. In part of the decreased expenses, they are variable expenses based on sales volume, including entertainment expenses, transportation costs, fuel costs, and packaging expenses.

Operating revenue for 2024

In 2024, the Company generated total product sales revenue of Baht 508.22 million, a decrease of Baht 131.97 million or 20.61% from 2023, primarily due to:

- Revenue from electrical system product sales amounted to Baht 486.93 million, a decrease of Baht 103.32 million or 17.50% from Baht 590.25 million in 2023, due to a reduction in product orders across all customer groups, including real estate developers, contractors, retail stores, and modern trade businesses, resulting from economic contraction, rising household debt, increased labor costs, and higher raw material prices for construction equipment, which led to slow down of both high-rise and low-rise construction projects of medium and small scale.
- Revenue from energy product sales amounted to Baht 19.41 million, a decrease of Baht 19.13 million or 49.64% from Baht 38.54 million in 2023, due to contractors of rooftop solar installation for factories not securing new contracts, leading to a reduction in product orders. However, revenue from rooftop solar installation for residential customers increased by Baht 1.19 million.
- Revenue from technology and communication product sales amounted to Baht 0.37 million, a decrease of Baht 3.98 million from Baht 4.35 million in 2023, due to a 82.79% decline in Home Automation product sales and installation, as well as a decline in Data Center product sales.
- Revenue from other product sales (construction equipment and furniture sales) amounted to Baht 1.51 million, a decrease of Baht 3.41 million or 69.31% from 2023.

Revenue from product sales in Q4/2024 amounted to Baht 125.02 million, a decrease of Baht 16.04 million or 11.37% compared to the same period in the previous year, which increased by Baht 9.49 million or 8.21% from Q3/2024.

Revenue from installation services of solar rooftop projects and indoor electrical connection systems

In 2024, the Company's revenue amounted to Baht 21.35 million, a decrease of Baht 72.66 million or 77.29% from Baht 94.01 million in 2023, due to the Company securing smaller-scale rooftop solar installation projects for industrial customers compared to the previous year. Revenue from installation services in Q4/2024 amounted to Baht 1.79 million, a decrease of 92.04% from Baht 22.49 million in the same period of the previous year, and an increase of Baht 0.89 million or 98.89% from Q3/2024, as the Company received additional rooftop solar installation and bus duct repair projects.

Other incomes

In 2024, other incomes amounted to Baht 1.94 million, a decrease of Baht 2.63 million or 57.55% from Baht 4.57 million in 2023, due to foreign exchange gains of Baht 2.77 million in 2023, while in 2024, the Company had only Baht 0.24 million in foreign exchange gains. Compared to Q3/2024, other income increased 4.56 times, as there was no interest income in Q3/2024, and the Company incurred a foreign exchange loss of Baht 0.09 million. In contrast, in Q4/2024, the Company had interest income from fixed deposits of Baht 0.44 million and foreign exchange gains of Baht 0.19 million.

EBIDA	21.77	37.50	(41.95%)	3.74	7.62	6.59	54.55%	15.63%

The Company had a gross profit from product sales of Baht 86.44 million in 2024, a decrease of 14.28% from Baht 100.72 million in the previous year. The gross profit from product sales in Q4/2024 was Baht 21.18 million, a decrease of 4.55% compared to the same period last year due to lower product sales revenue. However, it increased by 5.53% from Q3/2024, driven by increased sales from contractor group customers.

The Company's gross profit from services in 2024 was Baht 1.65 million, a decrease of 60.69% from Baht 4.22 million in the previous year. In Q4/2024, the gross profit from services was Baht 0.55 million, a decrease of 68.02% compared to the same period last year, as the number and scale of project installations were lower. However, the gross profit from services increased 4.5 times compared to Q3/2024, due to additional rooftop solar installation and busduct repair projects.

The Company's profit before tax for 2024 was Baht 9.77 million, a decrease of Baht 15.96 million or 62.03% from the previous year, primarily due to lower operating revenue. As the Company is in the early stages of expanding into the technology and communication sector, additional specialized personnel were recruited, leading to higher distribution and administrative expenses. However, the profit before tax for Q4/2024 was Baht 5.32 million, an increase of 21.46% compared to the same period last year, due to a decrease in administrative expenses in part of consultancy fees and issuance and offering of ordinary shares in the Stock Exchange in Q4/2023, and an increase of 2.69 times compared to Q3/2024 due to an increase in revenue from sales and a decrease in distribution expenses and administrative expenses.

The Company's EBIDA for 2024 amounted to Baht 21.77 million, a decrease of Baht 15.73 million or 41.95% from the previous year. However, the EBITDA for Q4/2024 increased by 15.63% compared to the same period last year and by 54.55% from Q3/2024, as operating profit in Q4/2024 was higher due to increased sales and decreased administrative expenses.

Distribution expenses

The Company had distribution expenses for 2024 of Baht 35.72 million, a decrease of 2.57% from the previous year. The distribution expenses in Q4/2024 amounted to Baht 8.09 million, a decrease of 12.36% compared to the same period last year, as lower sales resulted in a reduction of related distribution expenses, including transportation costs, entertainment expenses, fuel costs, and packaging costs. For Q4/2024, expenses also decreased by 5.82% from Q3/2024, due to a reduction in annual bonus allocations and a reclassification of interest on employee benefit reserves as financial costs.

Administrative expenses

The Company had administrative expenses of Baht 41.72 million in 2024, a decrease of 4.62% from the previous year. The administrative expenses in Q4/2024 amounted to Baht 9.21 million, a decrease of 16.65% compared to the same period last year, primarily due to reduced expenses for legal consultants, system development consultants, and financial advisors (FA), as the Company's entry into the Stock Exchange was completed in 2024. Additionally, administrative expenses in Q4/2024 decreased by 10.50% from Q3/2024, for the same reasons as the reduction in distribution expenses, including a downward adjustment in annual bonus allocations due to performance not meeting targets and the classification of interest on employee benefit reserves as financial costs.

Financial expenses

The Company had financial expenses of Baht 2.83 million in 2024, a decrease of 19.83% from Baht 3.53 million in the previous year, and a decrease of 8.64% compared to the same period last year. This decline was due to improved liquidity, as the Company did not take on additional loans from financial institutions, reduced the use of overdraft facilities, and did not issue promissory notes for debt payments to foreign creditors, resulting in lower interest expenses on promissory notes. However, financial costs in Q4/2024 increased by 27.59% due to the reclassification of interest on employee benefit reserves as financial costs.

Income tax expenses

The Company had income tax expenses of Baht 2.18 million in 2024, a decrease of 60.29% from Baht 5.49 million in the previous year, due to a decrease in operating profit. However, income tax expenses in Q4/2024 increased by 14.89% compared to the same period last year, as operating expenses decreased. Additionally, income tax expenses increased 2.17 times from Q3/2024, as higher sales revenue and lower operating expenses resulted in a higher operating profit compared to Q3/2024.
